anyone, but she still used a walker when she could! She's had hip surgery, a pacemaker, and still kept going! She is the reason why I love fresh brown eggs so much, she's had chickens my whole life, and she would always send me out to feed them. She put me to work when I was little, pulling weeds out of her garden, vacuuming, shaking out her rugs, I dreaded it! But now I would love to spend one day doing that again for her. She was loved by so many people. On her 100th birthday last March some of you helped send her birthday cards to make

“ I met Arlene in the 80's and we became friends. I remember driving back home from out east and stopping to say hi to her and her family. Arlene didn't want us to leave without a care package. She packed us a meal to take on the road. Fresh buttered sweet corn, chicken and those delicious red pears. My friend, her daughter and I enjoyed that meal and it is a lasting memory. Arlene and I had many phone conversations over the years, but not many recently as it became more of a challenge for her to talk on the phone. Her kindness and generosity were amazing. She was so devoted to her family. I will miss her and am glad that she has her wings now, because she was an angel on Earth. Much love to the family and friends. Katy Sticha
