“ Just learned of Dolly's passing and I am very sad. I have thought of her often and wanted to connect with her again. We were friends in high school and I've missed her dearly. She was a wonderful person and friend. Fly high Dolly.

“ Just learned of Dora passing so this is late. I was employed at USDA for 35 years and Dora was my friend. We became friends when I was transferred to NY in 1986 and she began helping me with my computer. Whenever I was in the NRCS State Office in Syracuse, I would visit her even if I was not there on computer business. Dora was always loving and helpful to anyone who needed assistance. I'm proud to have called her my friend. May she rest in peace.

Just learned of Dora's passing, taken way too soon. She was a wonderful, kind person; she was briefly engaged to my older brother, Gary. I hope she had a great life and rests in peace.

“ When we were kids, we called her Dolly. Then we grew apart, but I often thought about her. May you Rest In Peace Dolly. Our childhood memories will always be with me.
